

## **TRADESPERSON FITTER MACHINIST**

Tully Sugar has opportunity for a suitably qualified Workshop Machinist to become a key member of our mechanical maintenance team.

### **Our Company**

Highly regarded in the Australian Sugar Industry producing quality raw sugar and renewable energy.

Future growth and development

Subsidiary of Global Company retaining that local community spirit

### **The Role**

Working in the mechanical workshop you will be required to operate milling and drilling machinery, grinders and lathes to create parts etc as required. The workshop provides a critical service to the entire factory by machining components for a variety of sugar milling equipment.

### **Qualifications & Experience**

- Certificate III in Fitter Machinist or equivalent.
- Demonstrated experience of at least 3 years of machinist work.

As a mechanical fitter you may also work on maintenance and repair of mechanical equipment in other areas of the factory if required. Tully Sugar employs 2 Mechanical Apprentices each year and you will be expected to provide trade guidance to Apprentices.

### **Work/life balance**

- Permanent full-time hours of employment with yearly Enterprise Agreement % increases
- Superannuation Guarantee % and salary packaging offered.
- Generous 5 weeks of leisure time each year on top of a 4-day week from January to May.
- Training and development opportunities.
- The Company looks after you with free flu vaccinations and access to a Nurse on site monthly for blood- pressure checks and general health Q&A.
- For you and your family there is free access to our Employee Assistance Program (EAP)
- Accommodation - below market rate rental of a Company house would depend on availability.

The strong community of Tully has well established educational, health, sporting and shopping facilities. Take a virtual tour of our region <https://www.tropicalnorthqueensland.org.au/where-to-go/>

### **Remuneration and Fitness for Duty**

- Tully Sugar Limited has well established employment conditions and competitive wages levels under the locally agreed Enterprise Agreement.
- Safety is our priority and participation in our Fitness for Duty program which includes drug and alcohol testing prior to employment is required.
